

# The Green Blue

Making the environment second nature

- never allow rubbish to go overboard
- don't let oil or fuel spill into the water
- use onshore toilets where possible
- navigate carefully when we see marine animals and keep wash to a minimum
- choose our anchoring site carefully
- use low phosphate, environmentally-friendly products
- recycle our every day waste
- safely dispose of waste from maintenance e.g. antifoul

**Please support this Code of Conduct and help keep our coasts and shores beautiful.**
